M. K. McGrath, former Secretary of State, to whom was referred by Circuit Judge McDonald the application of the Gegenselter Schwaben-Frauen Unterstut-zungs Verein for a pro forma decree of inorporation, reported yesterday that there ere objections to granting the decree.

PROPERTY OWNERS TO ASK REDUCTION OF TAX LEVY.

May Request Board of Review to Change Assessment on Belongings in Flooded District.

Residents and property owners of Centerville Station and the southern section of East St. Louis, which includes all of the land flooded, are arranging to hold a series of public meetings, at which committees will be appointed to appear before the St. Clair County Board of Review in an effort to lower the taxes assessed against the flooded property.

The first public meeting will take place some time next week and will probably be in East St. Louis, Farmers and residents of the city will be present. It is urged by the land owners that they will not receive any rent for their land, as of the city will be present.

It is urged by the land owners that they will not receive any rent for their land, as the farmers either lost all their personal belongings or have suffered much damage. In the city the loss to the property owners will be considerable, and also in the loss of rents, until the property can be put in good order again. All of the property has been assessed by the local Assessors, so that there is but one recourse, and that is to appeal to the County Board of Review.

One of the peculiar features in connection with this matter is that the real estate assessment, which stands for four years, was made this year. C. B. Carroll of East St. Louis, a member of the Board of Review, stated last evening that he could not tell what action the board would take on the appeal for a reduction of the ossessment, and that the matter would very likely have to be referred to the State Attorney.
